Rajhi Ismail | Rajhi Ismail | Zhengzhou, China

Objective

Master's student in Computer Science in China with a strong interest in artificial intelligence, deep learning, and software development. Passionate about designing and building intelligent systems that address real-world problems. Experienced in full-stack development, machine learning, and mobile application development, with a growing focus on AI research and practical intelligent applications.

Experience

- **CNM — Campus Numérique de Métier** *FEB 2026 – JUNE 2026 • 4 months*
  Software Engineering Intern Tunis, Tunisia
  - Developed an AI-powered e-commerce platform with chatbot integration using Angular 17, Node.js, and MongoDB
  - Implemented product management, order processing, return requests, analytics dashboard, and AI-assisted customer service
  - Integrated Socket.IO for real-time communication and Puter.js for AI-powered content generation
  - Worked in a team environment using Git/GitHub for version control

Education

- **Henan University of Technology** *2026 – Present*
  Master's Student in Computer Science Zhengzhou, China
  - Research interests: Artificial Intelligence, Deep Learning, and intelligent software systems

- **Faculty of Science of Monastir (FSM)** *Sep 2023 – Jun 2026*
  Licence Degree in Computer Science — Software Engineering Track Monastir, Tunisia
  - Graduation grade: **15.20/20**
  - Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming, Database Systems, Software Engineering, Web Development

- **school Ibn-El-Haithem** *2023*
  *Baccalaureate in Computer Science (Honors) — **TOP 1 Graduate*** Béja, Tunisia
  - Ranked 1st out of all students in the school
  - Grade: 15.15/20

Projects

- **AI-Powered E-Commerce Platform & Chatbot**
  Angular 17, Node.js, Express.js, MongoDB Atlas, Socket.IO, Puter.js
  - Designed and developed a full-stack e-commerce platform with real-time chatbot assistance and automatic product content generation
  - Implemented product management, order processing, return requests, and analytics dashboard
  - Used Socket.IO for real-time communication and MongoDB Atlas for scalable database management

- **TEMPORA — Immersive 3D Weather Website**
  Next.js, TypeScript, Three.js, React Three Fiber, Drei, Tailwind CSS, GSAP/Framer Motion, Open-Meteo, Recharts, Lucide React
  - Built an immersive 3D weather experience with Next.js and React Three Fiber, featuring a textured Earth, clouds, lighting, and interactive globe navigation
  - Implemented global city search and geocoding with the Open-Meteo API, including smooth camera transitions to selected destinations
  - Developed a responsive, location-aware weather dashboard with real-time conditions and hourly trends, using Recharts and Lucide React

- **Olympic Medal Prediction — Machine Learning**
  Python, Scikit-learn, Pandas, NumPy, Matplotlib
  - Built ML regression models to predict Olympic medal counts per country

- Completed full ML pipeline: data preprocessing, feature selection, model training, evaluation, and hyperparameter optimization
- Achieved high prediction accuracy using multiple regression techniques

- **Cross-Platform Weather Application**
  Flutter, Dart, OpenWeatherMap API, REST API
  - Developed a cross-platform mobile app with real-time weather updates and 7-day forecasts
  - Integrated geolocation services and implemented clean UI/UX with Flutter state management

- **Gym Management System — Desktop Application**
  Java, MySQL, JDBC
  - Developed a desktop application for managing gym members, trainers, and subscriptions
  - Implemented user authentication, full CRUD operations, and MySQL relational database

- **Personal Portfolio Website** *[Website]*
  HTML5, CSS3, Bootstrap, JavaScript
  - Built a fully responsive portfolio website showcasing projects and technical skills
  - Implemented custom animations, dark theme, and glassmorphism design

Honors & Awards

- **TOP 1 Graduate — Baccalaureate in Computer Science (Honors)**
  Lycée Ibn-El-Haithem, Béja, Tunisia
- **Amazon EC2 Cloud Computing Certificate**
  Amazon Web Services (AWS)
- **Cisco Networking Academy — NDG Linux Unhatched Certificate**
  Cisco Systems
- **Duolingo English Certificate — B2 Level (Upper Intermediate)**
  Duolingo

Skills

- **Programming Languages:** Python, JavaScript, Dart, Java, SQL
- **Web Technologies:** Next.js, React, TypeScript, Angular 17, Node.js, Express.js, HTML5, CSS3, Tailwind CSS
- **Backend & APIs:** REST APIs, Open-Meteo Weather and Geocoding API, OpenWeatherMap API, SOAP API
- **Mobile Development:** Flutter, Dart
- **Databases:** MongoDB, MySQL, Firebase
- **Data Science & Machine Learning:** Scikit-learn, Pandas, NumPy, Matplotlib
- **Cloud Technologies:** Amazon Web Services (EC2)
- **DevOps & Version Control:** Git, GitHub, Three.js, React Three Fiber, GSAP, Framer Motion, Recharts, Lucide React
- **Soft Skills:** Problem-Solving, Teamwork, Time Management, Adaptability, Creativity, Self-Learning

Languages

Arabic Native
French Fluent (Tunisian Education System)
English B2 — Upper Intermediate (Duolingo Certified)
Chinese Beginner (Currently Learning)

Certifications

- **Duolingo English Test — B2 Level**
- **Amazon Web Services — EC2 Cloud Computing**
- **Cisco Networking Academy — NDG Linux Unhatched**
